

fischer 1051 triax connectors

*new
design*

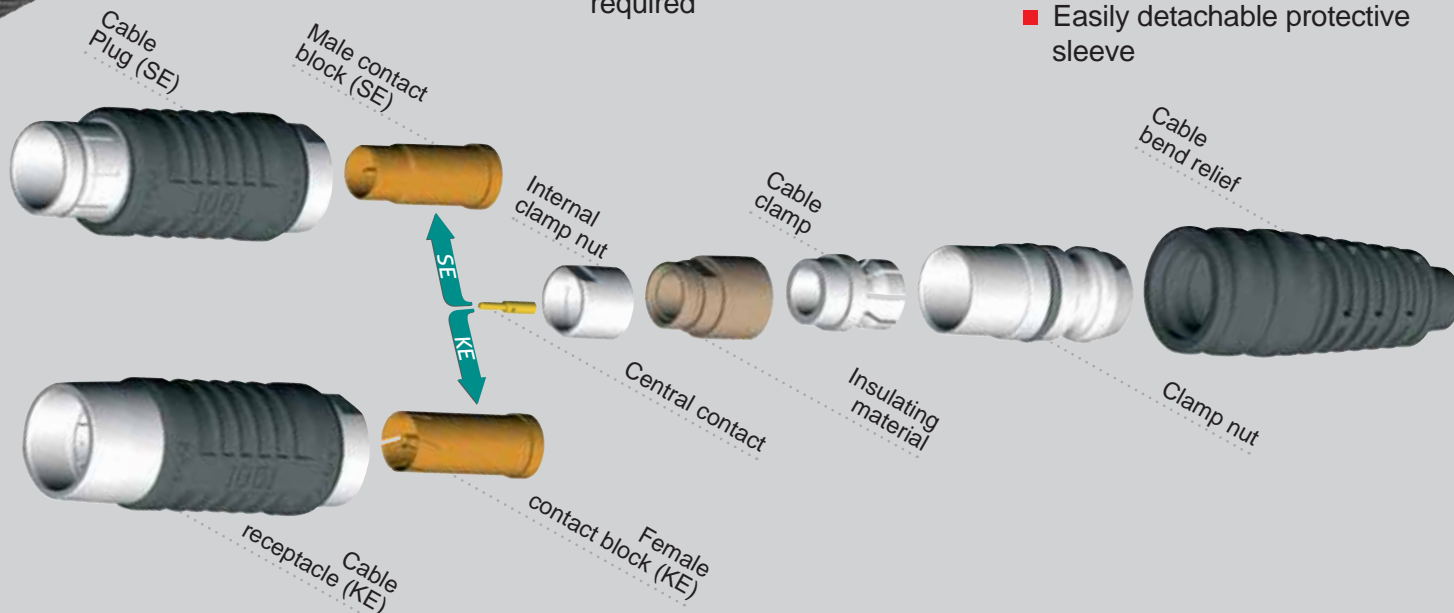

- Fast assembly
- Convenient maintenance
- Superior RF performance
- High strength watertight design
- Integrated cable bend relief
- Designed to allow rapid gender change
- For Outside and Studio Broadcast

Since its launch back in 1972, the Fischer 1051 Triaxial Connectors have set the standard in the broadcast industry. Acknowledged for its high reliability and strength, the 1051 Series is globally exploited in Studios and Outside Broadcasting.

To further improve their user friendliness, some models of the Fischer Connectors 1051 Series have been redesigned. Engineered to achieve greater flexibility and ergonomics, the new design facilitates quicker assembly and maintenance.

Fast assembly & convenient maintenance

- Optimized parts design
- Reduced number of components
- Crimp or solder contacts available
- No specific tools required
- High flexibility even when assembled
- Interchangeable contact blocks
- Rapid gender change
- Integrated cable bend relief
- Easily detachable protective sleeve

Cable clamp sets

Cable Ø [mm]	Part Number
1.0 / 4.5 / 8.7	E3 1051.1 / A004-9 / 1.0 / 4.5 / 8.7
1.0 / 4.5 / 9.4	E3 1051.1 / A004-9 / 1.0 / 4.5 / 9.4
1.4 / 4.5 / 9.4	E3 1051.1 / A004-9 / 1.4 / 4.5 / 9.4
1.4 / 6.6 / 11.3	E3 1051.1 / A004-9 / 1.4 / 6.6 / 11.3
